

**College of Biological Sciences  
Department of Molecular and Cellular Biology  
Faculty Candidate Seminars**

---

**James Letts**, Ph.D., Institute of Science and Technology (IST), Austria  
Monday, February 12 – 9:30am; 148 Briggs  
Host: Fred Chedin

Title: Single particle cryo-EM of the mammalian mitochondrial electron transport chain

**Grace Yen**, Ph.D., Stanford University  
Tuesday, February 20 – 9:30am; LS 1022  
Host: Chris Fraser

Title: "Circumnavigating the RNA World: Circular RNA Immunity"

**Elwood Mullis**, Ph.D., Vanderbilt University  
Thursday, February 22 – 9:30am; LS 1022  
Host: Fred Chedin

Title: "New Mechanisms for Repair of Bulky DNA Adducts and Interstrand DNA Crosslinks"

**Weiwei Wang**, Ph.D., Rockefeller University  
Thursday, March 1 – 9:30am; 1022 LS  
Host: Jodi Nunnari

Title: "K<sup>+</sup> channels, biological devices for cellular electricity"

**Sarah Heissler**, Ph.D., NHLBI  
Monday, March 5 – 9:30am; 148 Briggs  
Host: Joanne Engebrecht

Title: "Looking under the hood of myosin motors"

**Jonathan Pruneda**, Ph.D., LMB, Cambridge University, UK  
Thursday, March 8 – 9:30am; 1022 LS  
Host: Oliver Fiehn

Title: "How pathogenic bacteria subvert host ubiquitin signaling"

**Liz Kellog**, Ph.D., University of California Berkeley  
Thursday, March 15 – 9:30am; 1022 LS  
Host: Celina Juliano and Jawdat Al-Bassam  
Title: TBD
